

FSK-VTE-001

# GEKO Venous Thromboembolism (VTE) Prevention Study

## SEP 2024 NEWSLETTER

### RECRUITMENT

★ **103** / 1200 participants enrolled

**MOST RECENT ENROLMENTS: Royal Stoke University Hospital,  
enrolled on 26 Sep 2024!**

As we announced earlier in September, we reached our first **MILESTONE GOAL:**  
enrol 100 study participants!

A HUGE **THANK YOU** to you all for your efforts!

And in particular, congratulations to Countess of Chester for enrolling the 100th Study Participant!

Top Recruiter: Royal Stoke University Hospital are still forging ahead with a grand total of **33 participants** enrolled!

Unfortunately, despite all this fabulous news, September was a quiet month for our study; only **5 study participants** were recruited this month!

**As always, PLEASE do keep on screening for new patient study participants!**

### UPDATE TO ADVICE!

We now have a **change** to prior advice regarding patients who are **repatriated**.  
For participants who are repatriated, please note as below:

**Q: Patient enrolled but being repatriated to different Hospital Trust for continuing treatment.**

Patient's randomised treatment is discontinued.

- Complete **Study Level Form - Device Information & Log** accordingly.
- Complete **Study Level Form - Subject Milestones**, Last GEKO / IPC Treatment Date.  
Discontinuation Reason: **Other - Repatriated to other Hospital Trust.**
- Ask if patient is happy to be contacted at the Day 90 follow-up.
- For all missed visits, complete **Study Level Form - Protocol Deviation** to explain they are missed because the participant is no longer in-patient at study site.
- Conduct **Day 90** follow-up call. Utilise available GP notes etc. to complete Part 1 of the **90d questionnaire** if available.

We apologise for any confusion or inconvenience.
