

FSK-VTE-001

GEKO Venous Thromboembolism (VTE) Prevention Study

OCT 2024 NEWSLETTER

RECRUITMENT

112 / 1200 participants enrolled

**MOST RECENT ENROLMENT: Royal Bournemouth Hospital,
31 Oct 2024!**

Top Recruiter: Royal Stoke University Hospital are still the top of the leader board with a grand total of **38 participants** enrolled!

Overall, October was an improvement in terms of recruitment for our study; we had **9 study participants** recruited this month!

As always, **PLEASE** do keep on screening for new patient study participants!

NEW SITE!

WELCOME

Salford Royal Hospital

We are excited to have you onboard!

SUBSTANTIAL AMENDMENT REMINDER!

The main aim: to clarify geko/IPC device application if anticoagulation is administered

Please review the summary slides that highlight the main changes to the study protocol (**V4.1, 16 OCT 2024**) and Information Sheets/Forms (**V3.0, 27 JUN 2024**).

We should be ready to deploy the required updates to the EDC database soon. Further news regarding its release will be announced in due course.

For Green Light and Local Implementation of Amendment 9/10:

- Hospital R&D approval received
- Forward signature by PI on updated Protocol Investigator Signature Page
- Complete updated training log V4.1 (all study personnel to sign to acknowledge amendment)
- Localisation of updated Information Sheets and Forms (Version 3, 27 JUN 2024) - please inform us if you need assistance to localise

Please continue to enrol under the current version of the protocol until further notice
